

TRUST THE AI. MANAGE THE RISK. STAY SECURE

YOUR AI-POWERED SENTIMENT ANALYSIS PLATFORM

VX Sentinel monitors and analyzes millions of online data in real time — across social media, news, blogs, forums, and more.

Strategic partner & award :

Key Features

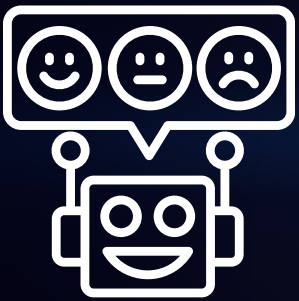

Real-Time Monitoring

Monitor customer sentiment instantly in 240+ languages, empowering quick responses and informed decisions worldwide.

Multi-Source Coverage

Access over 6M+ data sources, from mainstream global media to niche forums, ensuring complete and diverse coverage.

AI/NLP Sentiment Scoring

Leverage AI-powered NLP to accurately classify sentiment as positive, negative, or neutral for precise insights.

Custom Dashboards & Alerts

Create custom dashboards and set real-time alerts with role-based access for admins, analysts, and clients.

Predictive Narrative Suggestions

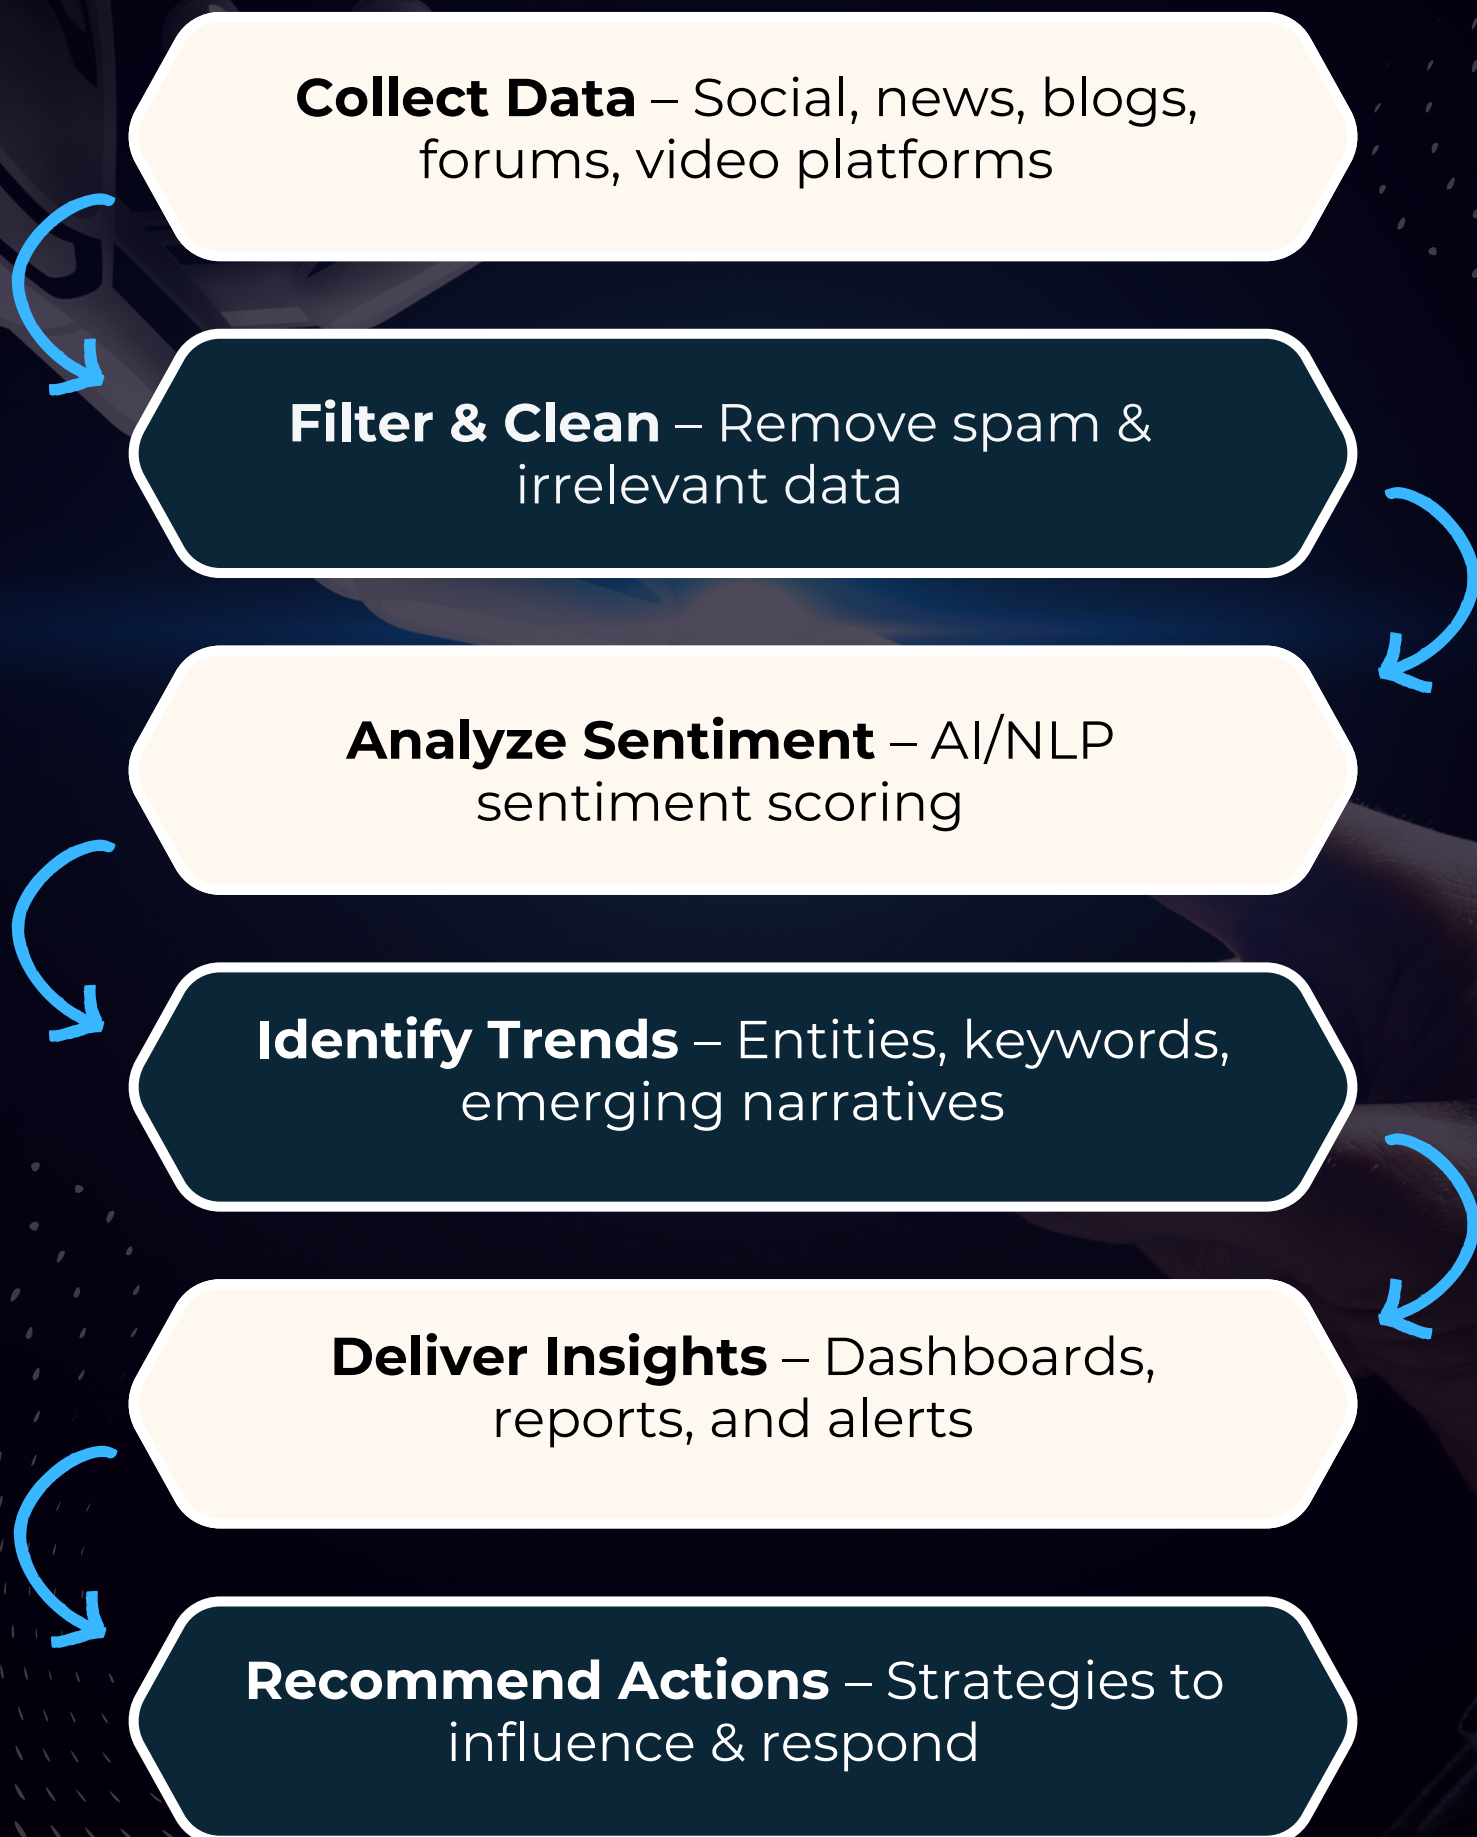

Use AI-driven recommendations to predict trends and craft narratives that influence public opinion effectively.

Strategic Insights

Gain strategic insights that provide actionable guidance to drive brand growth and mitigate potential crises.
